BOOK SYNOPSIS

This volume of essays provides insights into educational technology from a diverse set of vantage points. Each chapter provides school leaders with both conceptual insights and practical guides. Moreover, the authors of these insights and guides are eclectic including: current K-12 school educators and students, professors and graduate students of educational technology and educational leadership, and technology industry leaders. Our goal was to provide a thoughtful and thought-provoking set of essays that propels your own work in the world of educational technology forward. The audience for this book includes teachers, school and district leaders, educational technologists, educational policymakers, and higher education faculty. Chapters demonstrate a number of specific uses of advanced technologies in schools, in educational leadership, and in leadership preparatory programs. Chapters are accompanied by screen-captured images and links to multimedia examples that are accessible to readers via the Internet, including digital artifacts of leadership and learning that will guide readers to implementation in diverse educational settings.
